Dear Mr. Navasky,

If I were able to search for it I'd enclose a copy of the CIA record I refer to. ^{maybe struck,}
It states that Robert Kennedy was surprised to learn of the attempts to kill Castro
and of its alliance with the mafia in this and ordered that no such things ever
be undertaken at least without consultation with him.

The general I refer to is Gavin but because I am not now physically able to
search for the tape, of an interview I conducted at the annual ABA meeting at
the Shoreham for Authors Roundtable, I do not mention his name.

Sincerely,

Harold Weisberg

I gave my copies of these Pentagon
releases to the present general counsel
of Lucas Films when he was a student
researching the cold war.

His name is Howard Roffman if this
interests you. My copies were from the Wash. Post but I think the N.Y. Times
index would list them.
